

# Yarn break alarm lamp indicator

## Yarn break alarm lamp indicator

---

### Description:

Alarm Lamp Indication for yarn break for fast identification, operator ease and reducing patrolling time.

**Machine:** Two For One Twister Model COSMOS

**Validity:** All TFO Machine without Yarn break lamp Indicator

**Kit codes:** SILSPKIT2017-01

### Features and benefits:

- Indication lamp glows in the event of yarn break on spindles
- Differential lamp indication for LHS and RHS side breaks for ease of identification of yarn break side.
- Reduced reaction time & efficient operator patrolling to attend the break, thus lower spindle idle time.
- Fewer parts and easy to adopt on existing machines.
- Kit includes - Control Circuit board, Power Supply 24V, Transmitter & receivers, Dual color pillar alarm lamp.
