

Flyers for working with Spandex

Flyers for working with Spandex

Description:

Specially designed flyer for processing blended yarns with spandex (eg. Lycra®, Roica™). The kit includes special flyers and bush & rubber ring (for dia. tube 54 or 56mm). The kit is available for basket sizes 1AR, 1A, 2A, 1BR, 2BR, 1B & 2B, for free balloon system -250mm & 300mm gauge machines.

Machine: Two For One Twister Machine (SIRIUS / COSMOS)

Validity: All TFO machines without Spandex flyers (Free balloon, 250mm & 300mm Gauge Machines)

Kit codes:

Spindle	Inner Tube Size	Kit Code
1AR	54mm / 56 mm	700.000.0337 / 38
1A	54mm / 56 mm	700.000.0339 / 40
2A	54mm / 56 mm	700.000.0341 / 42
1BR	54mm / 56 mm	700.000.0343 / 44
2BR	54mm / 56 mm	700.000.0345 / 46
1B	54mm / 56 mm	700.000.0347 / 48
2B	54mm / 56 mm	700.000.0349 / 50

Features and benefits:

- Unique design flyer with ceramic eyelets and counter balance for uniform unwinding of the feed package and also preserving the properties of the spandex.
- Due to specialized design, better speed & working on TFO can be achieved.*

LYCRA® is a trademark of INVISTA , ROICA™ is a trademark of Asahi Kasei Corporation

* Also depends on raw materials and working conditions
